## FREQUENTLY ASKED QUESTIONS

### Does the Personal Statement course help students who aren't applying to Oxbridge?

Yes, of course. That way, you can support your entire Sixth Form in making stronger and faster university applications. We include a mix of model personal statements, wider study recommendations, and evidence-based tutorials to guide students through applying for courses across the subject spectrum.

### How does student enrolment work? How long does it take?

We've opted for the fastest solution: a bulk enrolment. It only takes a minute of your time, and then we take on all the heavy lifting: creating student accounts, sharing their logins, and tailoring their experience based on the subject they're applying for. That way, every student will benefit, and you can be set up within a day.

### How long will my students have access once they're enrolled?

Forever. Student access is tied to their school email, so they will be able to maintain access for their entire Sixth Form journey. When your Year 13s graduate, their logins are deleted from our system, which makes room for you to add your new Year 12 cohort.

### As an Educator, how do I access the student progress reports?

When your Sixth Form is enrolled in the Personal Statement course, you will receive an Educator login. From here, you'll be able to track your students' progress through the course, and take advantage of the included learning resources. Often teachers use these alongside their existing university application programme, especially as everything is hosted online, and is accessible inside and outside of school.
